

Air 1 is a station that I listen to on a daily basis. I know that it has had a great impact on my life. It has given me a positive, uplifting station to listen to through out my day. Air 1 is also a station that is totally listener supported so it has no commercials. It also give me a variety of music to listen to. It plays contemporary hits. I believe that if Air 1 were to be replaced it would not only have a negative effect on myself but on the community on which I live. Air 1 is one of two Christian radio stations that I know of in this city. The church that I go to most of the youth group listens to Air 1 because of the variety that they play. I am a youth intern and the youth that I work with have had great success in getting kids that don't go to church to listen to this station. Our city has a a very high youth crime rate and kids don't need any more bad radio stations to choose from. I believe Air 1 has gained a lot of public interest in this city from all different age groups and people from all walks of life. Like I mentioned before Air 1 is a completely listener supported station and the people of this city and many other cities around the county give all year round to keep it on the air. Please let us keep our station that we are so willingly paying for.
